

## Factsheet

# Manulife Global Asset Allocation - Growth Fund

## Investment Objective

The Fund seeks to achieve long term capital growth while also managing downside risk. The Fund aims to meet its objective by investing primarily in a managed portfolio of collective investment schemes (including exchange-traded funds ("ETFs") and real estate investment trusts ("REITs") and cash. The Fund targets, at the end of each month, an asset allocation of up to 60% into schemes with underlying investments primarily in equities, commodity ETFs and/or REITs, if any. The rest of the assets of the Fund are invested into cash and schemes with underlying investments primarily in bonds and/or money market instruments.

<sup>\*</sup> Performance figures are calculated with all dividends and distributions reinvested, taking into account all charges which would have been payable upon such reinvestment, and are annualised for periods over one year. The Offer to Bid performance includes the effect of an assumed current maximum front end load, which the investor might or might not pay. NAV to NAV figures reflect the Fund's investment performance.

<sup>^</sup> Figures may not sum to 100 due to rounding.
